Klorman Construction Selected as Design-Build Contractor for Covina Transit Center in Covine

WOODLAND HILLS, CA. – August 15, 2017

Klorman Construction has been selected as the Design-Build contractor for the new 3-acre Covina Transit Center and Park & Ride, retail building and parking structure for Foothill Transit in Covina, California.

The transit center and park and ride development includes a 372-stall, three-level parking structure, six-bus bay transit center, a 4,400-square-foot retail building and a public plaza design to connect to the future civic component.

“We’re proud to partner and be a part of such a key transit development,” said Bill Klorman, president of Klorman Construction. “We think it has the potential to be a transformational mixed use development for that area, and we’ll bring all of our extensive experience to help that project succeed.”

The parking structure and landscaping and features a public plaza located between a retail building, the parking structure and the transit plaza with bus bays and will be designed to ease concerns, regarding privacy and traffic noise in consideration of the surrounding neighborhood. The plazas are designed to be used by current and future residents of the development to the north as they access Foothill Transit’s retail building and transit center.

The Covina Transit Center and Park & Ride is part of a public-private partnership effort, called the Covina Forward. It will feature a transit plaza with bus bays, retail, parking, a public plaza, and connective pathways throughout the development.

About Klorman Construction

Klorman Construction is a design/build general and structural concrete contracting company. Founded in 1980, the company has earned a reputation for building complex parking structures, multi-level towers and high-end architectural concrete projects.
