Klorman Construction Chosen as Design/Builder for Bobrick Corporate Headquarters Parking Structure in North Hollywood

Woodland Hills, Ca. – Nov. 9, 2013 --- W.M. Klorman Construction Corp. has been selected by Bobrick Washroom Equipment, Binswanger, along with Millie & Severson as the design and build contractor for Bobrick Headquarter's 260-stall parking structure in North Hollywood.

The Woodland Hills-based company will oversee all aspects of the four-level, 260-car, post-tensioned concrete parking structure.

As part of that, Klorman Construction will be responsible for meeting the requirements of the California Green Initiative, a mandatory code that stipulates new construction must meet certain environmentally-friendly thresholds. To accomplish this, Klorman Construction will include built-in bio-retention planters for the new building and parking structure.

"Each project brings with it certain unique requirements and challenges," said Bill Klorman, president of Klorman Construction. "With this particular development, we will have to meet certain green requirements. We look forward to doing exactly that and delivering a quality finished product to our client."

About Klorman Construction

Klorman Construction is a Los Angeles-based design/build general contractor and structural concrete contracting company. Founded in 1980, Klorman has earned a reputation for building complex parking structures, multi-level towers and high-end architectural concrete projects. Construction services include design/build, construction management, structural concrete, award winning Building Information Modeling (BIM) & VDC services, consulting, value engineering, renovation and project management.

Klorman Construction Corp. has more than 300 projects to its credit, including numerous developments and renovation projects in diverse building types and geographic regions. Its projects include mixed-use retail centers, hotels, office, institutional and medical buildings. The company maintains offices in Los Angeles, San Diego and San Francisco and Washington D.C.
