Klorman Construction Selected as Design/Build Contractor for DeOro Parking Structure in Ontario

Woodland Hills, Ca. – Nov. 12, 2013 --- Fullmer Construction has selected Klorman Construction to be the design and build contractor for the 211-car DeOro Parking Structure in Ontario.

Woodland Hills-based Klorman Construction will oversee all aspects of the two-level, post-tensioned concrete parking structure.

The parking structure is being built by Klorman Construction to service the staff and meet the public parking requirements for an adjacent 57,930-square-foot office building being built by Fullmer Construction. Irvine-based Westates Holdings LLC is the owner of the building and the parking structure, both of which will be leased to the County of San Bernardino.

Bill Klorman, president of Klorman Construction, pointed to his company's long history and expertise in developing post-tensioned parking structures.

"We've done this type of work for many years now," he said. "Over the years we've developed a reputation for bringing quality and attention to detail to every project, and we will certainly do so again here on behalf of Fullmer and Westates Holdings."

About Klorman Construction

Klorman Construction is a Los Angeles-based design/build general contractor and structural concrete contracting company. Founded in 1980, Klorman has earned a reputation for building complex parking structures, multi-level towers and high-end architectural concrete projects. Construction services include design/build, construction management, structural concrete, award winning Building Information Modeling (BIM) & VDC services, consulting, value engineering, renovation and project management.

Klorman Construction Corp. has more than 300 projects to its credit, including numerous developments and renovation projects in diverse building types and geographic regions. Its projects include mixed-use retail centers, hotels, office, institutional and medical buildings. The company maintains offices in Los Angeles, San Diego and San Francisco and Washington D.C.
