Klorman Construction Selected to Provide Structural Concrete for San Diego Elementary School Complex

NEWPORT BEACH, CA. – Nov. 3, 2013 --- **Klorman Construction** has been chosen by the San Diego Unified School District and Soltek Pacific Construction Co. to provide the concrete slabs for the planned 32-classroom Jonas Salk Elementary School in San Diego.

The two-story classroom complex and support facilities are designed to accommodate between 700-900 students. The 7-acre campus will consist of a classroom complex, an administration building, a multi-purpose building and a learning resource center.

“We’re proud that the San Diego Unified School District has chosen Klorman Construction to undertake such an important part of this project,” said Bill Klorman, president of Klorman Construction. “Over our 33 years in business we have built a reputation for solid craftsmanship and we will certainly bring those skills to bear on this important project.”

Klorman Construction will be responsible for providing the 43,236 square feet of concrete slabs on grade, 27,204 square feet of concrete 2nd floor decks and all foundation work for the Jonas Salk Elementary School.

The total site of 13 acres consists of 6 acres to be transferred to the City of San Diego, Parks and Recreation Department for the expansion of the adjacent Maddox Park, with the remaining seven acres being devoted to the school complex.

San Diego-based Soltek Pacific Construction Co. is the general contractor on the project, with San Diego-based Sillman Wright Architects providing design services.

About Klorman Construction

Klorman Construction is a Los Angeles-based design/build general contractor and structural concrete contracting company. Founded in 1980, Klorman has earned a reputation for building complex parking structures, multi-level towers and high-end architectural concrete projects. Construction services include design/build, construction management, structural concrete, award winning Building Information Modeling (BIM) & VDC services, consulting, value engineering, renovation and project management.

Klorman Construction Corp. has more than 300 projects to its credit, including numerous developments and renovation projects in diverse building types and geographic regions. Its projects include mixed-use retail centers, hotels, office, institutional and medical buildings. The company maintains offices in Los Angeles, San Diego and San Francisco and Washington D.C.
