Klorman Construction Tapped as Concrete Subcontractor for new Accelerated Charter School Project in Los Angeles

LOS ANGELES, CA. – May 5, 2015 -- Klorman Construction has been selected as the concrete subcontractor for the construction of the new Accelerated Charter Elementary School in South Los Angeles.

Woodland Hills, Ca.-based Klorman will oversee the concrete work on the foundations, slabs, decks and podium for the planned school. Construction is slated to begin in March and finish later this year.

Accelerated Charter Elementary School (ACES) was established by The Accelerated Schools in 2004 as its first off-campus charter school. ACES currently provides a quality dual language (English/Spanish) immersion program to 230 pre-K-6 students drawn by lottery from the local community.

“We’re proud to be associated with such a noteworthy and important educational effort,” said Bill Klorman, president of Klorman Construction. “We look forward to bringing our experience and know-how to help The Accelerated Schools expand this wonderful program.”

The new ACES campus will comprise approximately 100,000 square feet of new school improvements, which will consist of three Pre-K classrooms, three Kindergarten classrooms, three first, second and third grade classrooms, and two classrooms each for grades four, five and six.

Also included: a multipurpose room, cafeteria and lunch shelter space (totaling 11,569 square feet), as well as administrative support space (4,776 square feet), 210 parking spaces in a subterranean structure (59,000 square feet.), and 13,700 square feet of surface parking and student drop-off area.

GKK Works is the architect on the project. Pinner Construction Company is the general contractor.

About Klorman Construction

Klorman Construction is a Los Angeles-based design/build general contractor and structural concrete contracting company. Founded in 1980, Klorman has earned a reputation for building complex parking structures, multi-level towers and high-end architectural concrete projects.
