Klorman Construction Selected to be Concrete Subcontractor for Godfrey Hotel & Parking Structure

WOODLAND HILLS, CA. – April 5, 2018

HOLLYWOOD, CA. – April 5, 2018 – Klorman Construction has been selected as the structural concrete subcontractor for the development of the 200-room Hollywood Godfrey Hotel and 104-car parking structure.

Located in the heart of Hollywood at 1400 N. Cahuenga Blvd., the seven story, high-end boutique hotel – which sits over a three level subterranean parking garage -- features meeting rooms, restaurant space, state-of-the-art technology, a fitness center and a rooftop pool deck.

The three-level concrete parking structure and seven-story concrete on metal deck hotel structure, designed by Steinberg Architects, fronts three major roadways, presenting Klorman with certain logistical challenges given the heavy traffic location.

“The Godfrey hotel is a high profile property in a high profile city, and we at Klorman Construction are proud of our association in helping complete and contribute to this project,” said Bill Klorman, president of Klorman Construction.”

Davis Reed Construction Inc. of San Diego is the general contractor.

About Klorman Construction

Klorman Construction is a design/build general and structural concrete contracting company. Founded in 1980, the company has earned a reputation for building complex parking structures, multi-level towers and high-end architectural concrete projects. Construction services include project management, structural concrete building, award winning Building Information Modeling (BIM) & VDC services, consulting, value engineering, and renovation. Klorman Construction has more than 300 projects to its credit, including numerous developments and renovation projects in diverse building types and geographic regions. Its projects include mixed-use retail centers, hotels, office, and institutional and medical buildings.
