W.M. KLORMAN CONSTRUCTION SELECTED TO BUILD APARTMENT COMPLEX PARKING STRUCTURE

El Monte, Calif. W.M. Klorman Construction Corp. was selected as the design/build contractor for a 651-unit concrete parking structure that is part of a 350-unit apartment complex in the Mission Valley area of San Diego.

The 197,200-square-foot, 5-level structure will include a 24-inch mat slab foundation required by site soil conditions.

The general contractor is Wermers Corp., San Diego. Parkitects Inc. of Irvine, a parking consulting firm that is a division of Irvine-based Wayne Banks & Associates, is the architect of record. The apartment complex is owned by Archstone Communities, a Denver-based owner, operator and developer of garden-style apartments.

Construction is expected to begin in early April and be completed by December.
