Klorman Construction Chosen as Design/Build Contractor for Mercury Insurance Parking Structure in Brea

Project is second major contract awarded to Klorman Construction by Mercury

BREA, CA. – Mar. 16, 2009 --- **Klorman Construction** has been chosen as the Design/Build General Contractor for Mercury Insurance Group’s four-level, 480-car parking structure in Brea.

This marks Klorman Construction’s second project for Mercury Insurance, the leading independent broker and agency writer of automobile insurance in California. The Woodland Hills-based contractor completed a 458-car, 154,000 parking structure in 2007.

“Repeat business is always a good measure of how well a company has measured up to its clients’ expectations,” said **Bill Klorman**, president of Woodland Hills-based **Klorman Construction**. “We’re grateful to Mercury Insurance for their continued trust and look forward to once again exceeding their expectations.”

The latest project, located at 551 W. Imperial Highway, is designed to accommodate Mercury Insurance’s additional parking needs. The company is in the midst of expanding its existing administrative office building.

Unlike the first parking structure, Klorman said this project offers some unique challenges, given that the parking deck will feature flat plate post-tensioned concrete decks over

a post-tensioned, concrete mat slab foundation. This special design is necessitated by potentially unstable soil conditions at the site, a result of its location adjacent to drainage channel.

The project was started last month and is slated to be completed in November.

About Klorman Construction

Klorman Construction is a Los Angeles-based design/build general contractor and structural concrete contracting company. Founded in 1980, Klorman has earned a reputation for building complex parking structures, multi-level towers and high-end architectural concrete projects. Construction services include design/build, construction management, structural concrete, consulting, value engineering, renovation and project management.

Klorman Construction Corp. has more than 150 projects to its credit, including numerous developments and renovation projects in diverse building types and geographic regions. Its projects include mixed-use retail centers, hotels, office, institutional and medical buildings. The company maintains offices in Los Angeles, San Diego and San Francisco.
