

Project Name:

20th Century Fox Studios West Parking Structure

Location:

Century City, CA

Owner:

20th Century Fox Corporation

Architect or Engineer:

Parkitects, Irvine, CA

Description of Project:

The 789-stall parking structure services studio staff and visitors and also serves as a backdrop for current studio production publicity signage at a primary entrance to the studio. Klorman provided the reinforced concrete framing of the 9-story structure, five stories of which are located below ground and require a full methane encapsulation system.
